Notes on ordering Dual Roller Motorized FlexShade. Don't forget your controls.

*IM - Inside Measure. Draper makes a 1/8" deduction.

*OM - Outside Measure. No deductions made: widths shown is overall dimension include brackets or endcaps.

Motor location determined by viewing shade from inside the room. Right side standard.

Orders with fascia are automatically furnished with endcaps instead of brackets.

Aluminum slat encased in heat sealed hem.

Hardware size at the discretion of Draper, depending on size of shades ordered. If hardware size is critical, consult Draper before ordering.

For orders with multiple shades, hardware size will be determined by the size of the individual shade, and sizes will not be matched as a group, unless a dealer clearly requests matching hardware. Matching sizes will result in higher costs.

CHILD SAFETY NOTICE: This product complies with ANSI/WCMA A100.1-2022-Child Safety Standard, and has been Certified Best for Kids™ by the Window Covering Safety Council.
