Specifications

FLEXSTYLE CASSETTE ASCEND OPERATED SHADING SYSTEM:

Balanced spring operated, vertical roll-up, fabric shading system. Ships fully assembled, and includes operator, cassette, mounting brackets, and other components necessary for complete installation. FlexStyle Cassette Ascend as manufactured by Draper®, Inc.

SPRING OPERATOR: Balanced spring mechanism with metal roller. Adjuster ring built into the spring mechanism allows for finite adjustment of the torque output of the mechanism by turning it clockwise or counterclockwise.

CASSETTE: Ships fully assembled. Constructed of extruded aluminum. Can be wall or ceiling mounted. No fasteners visible from below, front, or slightly above. Curved or Square shape available.

FINISHES AVAILABLE: Black, White, Taupe, Warm White, Grey, or Textured Bronze. Fabric covered cassette also available (*without bottom closure only*).

MOUNTING BRACKETS: Spring-loaded wall or ceiling mounting brackets of plastic and steel. A minimum of two required per cassette. More may be required at the manufacturer's discretion.

ROLLER: Fabricated from extruded aluminum. Wall thickness and diameter selected by manufacturer to accommodate shade size.

FABRIC CONNECTION TO ROLLER TUBE: Fabric panel is attached with double-sided adhesive (*LSE*) specifically developed to attach coated textiles to metal to the roller tube at the top, and to the hem bar at the bottom. Adhesive attachment to eliminate horizontal impressions in fabric.

HEM BAR:

OPEN POCKET ELLIPTICAL SLAT: 1 inch (25mm) aluminum elliptical slat with plastic ends inside of a 1 5/8 inch (41mm) pocket.

FLAT EXPOSED HEM BAR: Small: 7/8 inch x 5/16 inch (22mm x 8mm) aluminum rectangular hem bar with plastic end caps.

LARGE EXPOSED HEM BAR: 1 1/2 inch x 5/16 inch (38mm x 8mm) aluminum rectangular hem bar with plastic end caps.

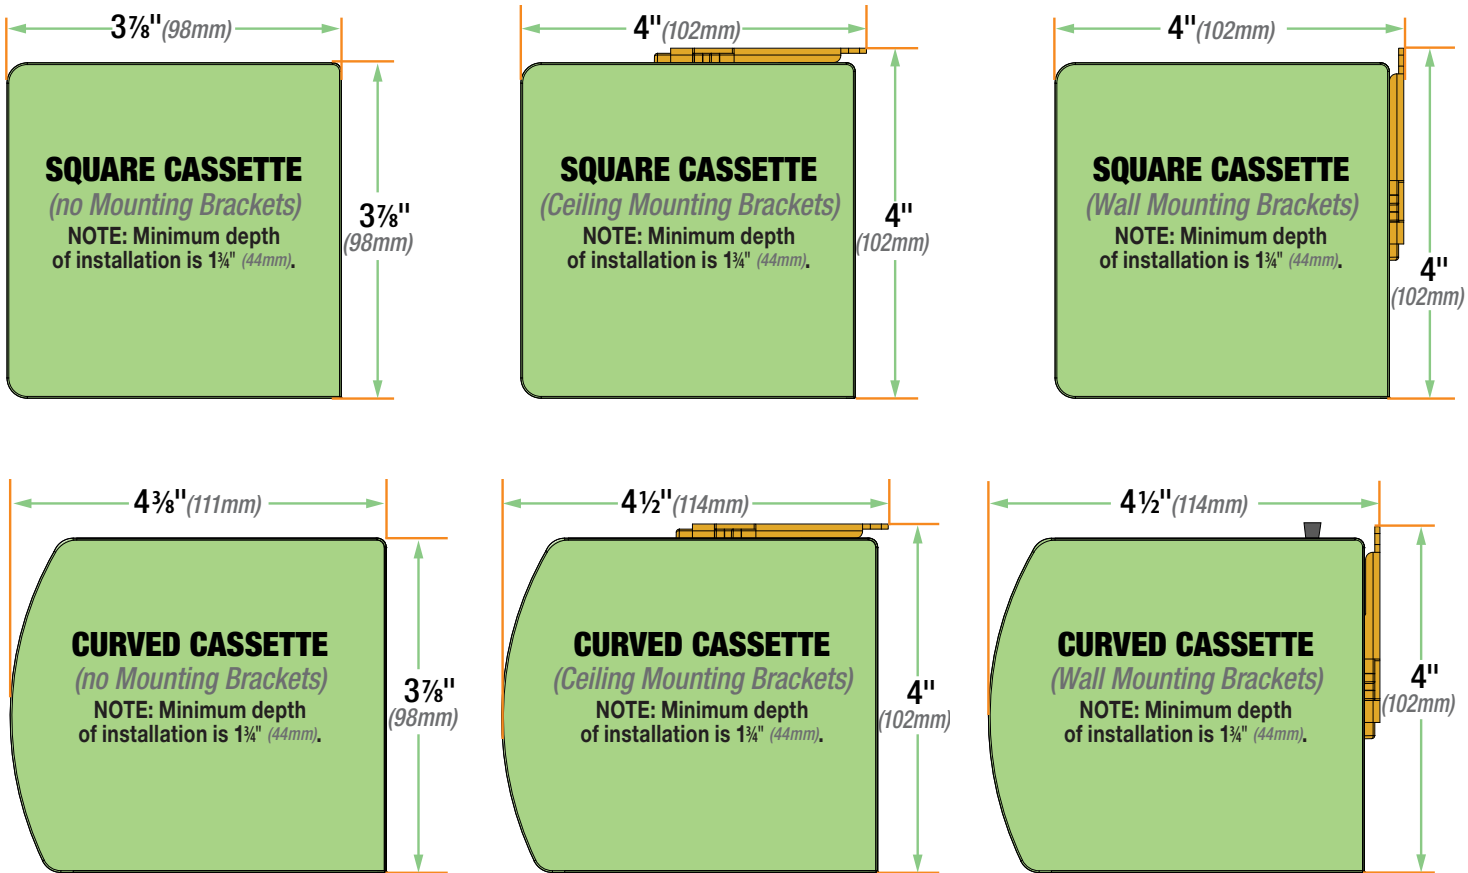

ROUND EXPOSED HEM BAR: Small 3/8 inch (16mm) and Large 19/32 inch (21mm) aluminum with plastic end caps.
