

SMART HOME COLLECTION
by BUDGET BLINDS®
driven by ROLLEASE ACMEDA

“ *Just installed our first Smart Home Collection Battery Shades from Draper. Came programmed – very easy. Super quiet, and impressed with synchronization.* ”

– Jeff Anderson, Budget Blinds of New Orleans, LA

\$50* Smart Home Collection Battery Shade Demonstration Kit

Includes:

- Smart Home Collection Battery Shade
- Recharger
- 15 channel handheld remote
- Carrying case

*Fully rebated with purchase of two Smart Home Collection Battery Shades

Smart Home Collection Battery Shade is manufactured exclusively by Draper®.

Quiet, rechargeable, lasts longer, and is more powerful than other battery operated shade systems.

- No cords and loops: a safer option around small children.
- Wide range of sizes up to 12' wide.
- Lower cost entry point for motorization.
- No battery wand to hide and no disposable batteries
- Charges from 110V outlet or optional solar panel, with a standard 5V micro-USB plug (purchased separately).
- Each charge lasts months.
- Extremely quiet operation.
- Installs just like a manual window shade. No wiring or electrician needed!

ACCESSORIES AVAILABLE:

- 5V Charger.
- Solar Panel – maintenance charger (subject to proper exposure to the sun).

CONTROL OPTIONS AVAILABLE:

- Remote control that can be used to set motor limits. Flush mounted to the wall for a conventional look with need to cut into the wall!
- App for mobile devices is also available. Program the top and bottom limits, and notify you when the battery needs recharging. Integrate with popular control systems.
- Sun Sensor.
- Wi-Fi to 433 2 way RF Bridge Kit.
- Wall Switches.
